“ I am Connie's nephew, Michael. I have many fond memories of good times spent
with his children, Richie, Bobbie, Ellen (now Ashley), and Betsy (whose Bat Mitzvah
was legendary!). I will always remember his kindness, sense of humor, and love of
great opera and great food. I admire how in his later years, Connie overcame his
health challenges and continued to practice medicine.

Love and peace to all of Connie's wonderful family.

“ I first met Connie when I contacted his office for a physical in the very early 70's. I think it was right after he started in private practice. He was my primary care physician until he retired. Every time I was in contact with him in that role, he made me feel like I was a friend and special patient. I know he treated all his patients like that. As time went on, my annual physical turned in to a restaurant review. When I started running marathons in the 80's my physical turned into a discussion of his son's marathon times. When Betsy started law school, each annual physical was a description of her school progress, then her internship and then her practice. When my daughter started her nursing program in college he always asked me about her progress and then what was going on in her nursing practice. I don't think the patient interview part of an annual physical was supposed to last an hour. When he and I were on the Board of Stages Theatre Company at the same time, I made sure to sit next to him at Board meetings so we could talk about everything other than Board stuff. We caught up on family stuff, food, restaurants, our kids and the latest jokes. I never knew so much could occur in the one month period since the last meeting. Connie was a wonderful, sweet, smart, considerate man He will be missed by many.

“ Dr. Butwinick was my first doctor, when I was diagnosed with arthritis. He was kind and thorough. When he figured out what I needed to feel better, he said that it makes him very happy to change peoples lives. He had tears in his eyes. I'll never forget that. God bless him.-

“ Connie's passing marks the loss of a wonderful and great man. He was my physician and close friend for nearly 50 years. He was a brilliant doctor and he had extraordinary devotion and compassion for his patients. His lively personality, wide range of knowledge, deep wisdom and warm heart will live on in all of us who were fortunate enough to know him well. Our condolences to his wonderful and loving family.
